PROFESSIONAL SUMMARY

Results-driven **Frontend & MERN Stack Web Developer** with strong hands-on expertise building responsive, high-performance web applications and modular interfaces. Proficient in **React.js, Redux Toolkit (RTK), JavaScript (ES6+), TypeScript, HTML5, CSS3, and Bootstrap**, with backend capabilities in building and consuming RESTful APIs with **Node.js, Express.js, Axios, and Fetch**. Proven track record of converting complex Figma UI/UX designs into pixel-perfect, accessible frontends with seamless API integration and robust client-side state management.

TECHNICAL SKILLS

Frontend Development: React.js, Redux Toolkit (RTK), Context API, JavaScript (ES6+), TypeScript, HTML5, CSS3, Bootstrap, Responsive Web Design

Backend & APIs: RESTful API Integration (Axios / Fetch), REST API Development (Node.js, Express.js), JWT Authentication

Databases: MongoDB, PostgreSQL, Firebase, LocalStorage

Tools & Methodologies: Git, GitHub, Figma-to-Code Conversion

Soft Skills: Problem Solving, Fast Learner, Attention to Detail, Time Management, Team Collaboration (English & Urdu)

WORK EXPERIENCE

Frontend Web Developer | Saylani Mass IT Training (SMIT) — 2025 – Present

- Architected and developed modular, component-driven web interfaces using **React.js, JavaScript (ES6+), HTML5, and CSS3/Bootstrap**.
- Converted complex Figma wireframes and prototypes into pixel-perfect, mobile-friendly, and cross-browser compatible layouts.
- Implemented state management using **Redux Toolkit (RTK)** and Context API for seamless data flow across components.
- Integrated RESTful APIs using **Axios and Fetch** for asynchronous data loading, dynamic UI rendering, and robust error handling.
- Maintained clean git branching workflows, collaborated in code reviews, and managed code repositories on **GitHub**.

KEY PROJECTS

Responsive E-Commerce Web Application — React.js, Redux Toolkit (RTK), JavaScript (ES6+), HTML5, CSS3

- Built a responsive, modern e-commerce web application featuring dynamic product catalog browsing, category filtering, search, and a complete shopping cart workflow.
- Implemented centralized state management using **Redux Toolkit (RTK)** to handle cart addition, item quantity adjustments, total calculations, and state synchronization.

Figma to Responsive Web UI Suite — HTML5, CSS3, Bootstrap, JavaScript (ES6+)

- Handcrafted distinct web interfaces from Figma designs into clean, semantic, and fully responsive web pages (including commercial furniture showcases and landing pages).
- Ensured 100% adherence to design specifications, typography scales, spacing tokens, and responsive breakpoints across desktop, tablet, and mobile devices.

EDUCATION & CERTIFICATIONS

Saylani Mass IT Training (SMIT) — Certification in MERN Stack & Full Stack Web Development

Graduation — Allama Iqbal Open University, Islamabad — Completed
